

GAF

We Protect What Matters Most

GAF offers durable solutions for today's roofing challenges. As North America's largest roofing systems manufacturer, GAF's broad product offering means the company is not vested in a single technology. Whether it's TPO, PVC, Liquid Membrane Roofing Systems, Roof Coating Systems, or anything in between, there's a GAF roofing system for your project requirements.

HICKMAN

Hickman Edge Systems - Cutting-Edge Solutions
Hickman Edge Systems, For more than seven decades the Hickman brand has been delivering best-in-class roof edge metal, serving as the roof's first line of defense. Hickman Edge Systems manufactures well over 1,500 miles of edge metal products in an average year and is your go-to source for dependable fascia, coping and water control.

CETCO

Trusted Performance and Reliability

For over 50 years, CETCO has been backed by the one of the world's largest mineral companies and features a wide variety waterproofing membrane technologies to protect the building envelope above and below grade. CETCO total system approach best accommodates the varied conditions encountered during construction, ensuring your waterproofing system performs properly in the unique conditions of your project.

POLY MOLDING

Expanded Polystyrene - EPS Geofoam
Poly Molding is the leading manufacturer of Expanded Polystyrene or EPS Geofoam. It is one of the most sustainable construction materials available. Expanded Polystyrene or EPS Geofoam is strong, lightweight, water-resistant with excellent insulation properties, and is widely used in construction projects ranging from bridges, buildings, roadways, stadiums and Green Roofs.
