

Congress Associates, LLC

Your Resource for a Sustainable Future

GAF offers durable solutions for today's roofing challenges. Choosing the right roofing system starts with choosing the right roofing company. As North America's largest roofing manufacturer, our broad product offering means we're not vested in a single technology. Whether it's TPO, PVC, Liquid Membrane Roofing Systems, Roof Coating Systems, or anything in between, there's a GAF roofing system for your needs.

Siplast offers a complete line of SBS Modified Bitumen, PVC KEE roofing and waterproofing solutions, including plaza deck applications. Siplast is also the industry leader in liquid applied PMMA resin for pedestrian and vehicular access waterproofing.

GAF HydroStop Premium Coat Roof System is a liquid-applied acrylic elastomeric system for recover and re-roof applications. It can be installed over various types of existing roofs, including single-ply, built-up, insulation board, structural concrete, and metal to help extend their life.

GAF manufactures a complete line of reflective coatings & sealants for roofing and waterproofing. GAF is proud to offer Roof Coating Systems for Acrylic, PMMA, PVDF, SEBS, Silicone, & Urethane technologies. No matter what your roofing substrate is, we have solutions for your roofing restoration.

GAF Energy is part of Standard Industries, the largest roofing materials company in the world. There is no better time to go solar than during a reroof project. We offer a simplified solar energy system that installs quickly by a professional contractor, at the same time as your new roof. GAF Energy makes saving money on electricity easier than ever before, with a leak-free install and the coverage under the best warranty in the business.

Backed by the resources of one of the world's largest mineral companies, CETCO features a wide variety of active and passive waterproofing membrane technologies for use in protecting the building envelope above and below grade. Our diverse product offering and total system approach are designed to accommodate the varied conditions encountered during construction, ensuring your waterproofing system performs properly in the unique conditions of your project. With more than 50 years of waterproofing technology experience, CETCO is known worldwide for quality, performance and reliability.

NovaFlex is a complete line of 1-part and 2-part sealants meeting the needs of metal roof, window, door, and siding manufacturers. NovaFlex also offers, Fiber Reinforced Roof Patch, 1-part Pitch Pocket Penetration Sealant, Gutter Sealant, & 1-part joint sealant for highways, pavement, & parking decks.

Harnessing Sunlight for Energy Savings. Kingspan Light + Air Systems, the new name for Bristolite, manufactures high quality daylighting solutions that provide efficient, sustainable and carbon free energy.

Ludowici clay tiles are the highest quality available, which is why they adorn thousands of historic and newly built structures around the world. Since 1888, architects, designers, homeowners, universities, commercial, and government clients have turned to Ludowici for uniquely beautiful architectural terra cotta products that stand the test of time. For truly distinctive tiles that reflect the unparalleled beauty of the past with the technology of the present, look no further than Ludowici.

The SafePro roof top fall protection systems exceed OSHA requirements, offer an eco-friendly solar power option and are unique because of their remote controlled access, security keypad entrance and ergonomic rail system, which provide safe and injury-free roof access & working conditions.

### ABOUT US

Congress Associates works with companies & products to ensure your building keeps unwanted water out. Our services span the entire building envelope, from below-grade foundation & utility access, to doors, windows & the roof. Products we represent are all backed by world-class manufacturers committed to sustainability. Together, we work to make buildings last longer, reduce lifecycle costs, and increase energy efficiency.
