

HG ROOF Automatic Welding Machine

Lighter, Hotter, More Control.

Technical Specifications

Power Supply:	240 VAC, 50/60 Hz
Output:	2000 W
Welding temperature:	120 – 1150° F (50 – 620° C) digital control of temperature with temperature indicated on the display
Hot air tool motor:	brushless
Motor life:	10,000 hours
Weight:	31 lbs. + 3 x 2.4 lbs. additional weights
Speed:	3.2 – 16.4 ft/min (1-5 m/min)
Welding width:	up to 1.6 in
Features:	automatic welding machine arm can rotate 180° , welding as close as 3 in. to the edge, includes soft start and safety shut-off switch
Applicable for:	Suitable for thermoplastic roof membranes
Items Included:	HG ROOF, transportation box, starting plate, 3 additional weights and wire brush
Case Dimension :	585 x 460 x 270 mm
Country of Origin:	Germany and Romania
Warranty:	1 year
