GAF

We Protect What Matters Most

GAF offers durable solutions for today's roofing challenges. As North America's largest roofing systems manufacturer, GAF's broad product offering means the company is not vested in a single technology. Whether it's TPO, PVC, Liquid Membrane Roofing Systems, Roof Coating Systems, or anything in between, there's a GAF roofing system for your project requirements.

OWENS CORNING

Durable. Versatile. Resistant.

Owens Corning® FOAMULAR® is a high-performing insulation, trusted by architects, engineers, builders and contractors to deliver superior insulating power and moisture resistance. Foamular® XPS is well suited to meet the needs for a wide variety of building applications.

GAF ROOF COATINGS

Liquid-Applied Roofing System Solutions

GAF offers a range of roof coating systems including acrylic, silicone and polyurethane options, designed to protect roofs from weathering, UV damage and leaks, with some systems offering features like high reflectivity and resistance to abrasion and chemical exposure. GAF roof coatings create a seamless barrier to protect against degradation from the elements.
