POLYGLASS®

01

Below-grade waterproofing products

- Waterproofing products and systems are needed to protect **below-grade concrete structures** like basements, underground parking, and foundation walls from water infiltration.
- **Pre- and post-applied** waterproofing membranes, and accessories for horizontal and vertical applications.

02

Air & Vapor Barriers

- Polyglass' range of VertiWrap™ Air and Vapor Barrier products includes **Permeable** and **Non-permeable sheet**
- **Fluid-applied** membranes, **sealants**, **liquid flashings**, and **detailing tapes** that are fully compatible.

03

Liquid Applied Waterproofing

- Polyglass USA's **Tecnocoat line** offers a robust portfolio of **Liquid-applied waterproofing** and **traffic coating systems**.
- Hand-applied and spray-applied solutions.
- Tecnocoat is ideal for **new construction** and **restoration projects**.
